

12 BOLT ECONO/COMP

MW's 12 bolt Econo/Comp modular aluminum housing is ideal for many dragster/altered applications. The center casting is only 14" wide. When used with standard end bells the housing width is 24". This gives a wheel to wheel width of 30 1/8" allowing for the narrow rear tread width that is popular today with a number of dragster chassis builders. Other widths are available. See page 52-53 for choices. This is easily done through the use of different end bells. The 12 Bolt ring and pinion has also become popular due to its reduced internal friction. This improved efficiency frees up

horsepower and becomes more beneficial in lightweight cars or lower horsepower cars.

For suspended dragsters we offer the Econo/Comp 4 link housing (shown at left). It incorporates special steel 4 link brackets and aluminum spacers along with a tubular lower tie bar. These new components make it easier than ever to convert a MW modular solid mount dragster housing to a 4-link set-up. Another important factor is the weight of the assembly. At 122 lbs. with drilled steel rotors, the Modular 12 Bolt can easily save 10 lbs. over a 9" Ford. For the super weight conscience racer, additional weight savings of roughly 15 lbs. is possible through the use of an aluminum spool, lightened gear, and MW carbon/carbon disc brakes.

93012 Modular 12 Bolt Econo/Comp Assembly

92412 Econo/Comp 4-Link Housing

12 BOLT ECONO/COMP ASSEMBLIES

93012 12 Bolt Econo/Comp Assembly5636.00
35 spline aluminum spool, lightened Pro ring and pinion gears, MW axles (gun drilled), bearings, drive studs, MW disc brake kit with drilled rotors, 92012 solid mount housing. Assembled weight 122 lbs.

93052 12 Bolt Pro Econo/Comp Assembly8101.00
Same as 93012 but with MW carbon/carbon brakes. Assembled weight 112 lbs.

93412 12 Bolt Econo/Comp 4-Link Assembly7032.00
35 spline aluminum spool, lightened Richmond Pro ring and pinion gears, MW axles (gun drilled), bearings, drive studs, MW disc brake kit with drilled rotors, 92412 4 link housing. Assembled weight 138 lbs.

93452 12 Bolt Mod Econo/Comp Assembly9497.00
Same as 93412 but with MW carbon/carbon brakes. Assembled weight 128 lbs.

91212 12 Bolt Center Section Only2988.00
Spare center set up with spool, Pro Gears, coupler or yoke.

91215

The 12 Bolt Modular center section is available as a ridged-mount center section featuring CV stub axles for independent rear suspension applications. Call an MW Technical representative for more information.
