

With the current trend in Super Comp toward suspended dragsters and altered, the MW Modular 12 Bolt Pro 4 Link housing is the answer. The Pro 4 link housing offers many benefits over mounting a steel 12 bolt housing with suspension brackets. MW's innovative modular design allows for a wide range of housing configurations. Housing width and 4 link centers can be adjusted through the use of different end bells and/or spacers. The housing in the assembly pictured is perfect for dragster applications with a wheel to wheel width of 33" and 4 link centers at just 16". Add to this all of the MW refinements to the 12 Bolt design increased efficiency of the 12 Bolt ring and pinion, and the lighter assembly weight vs a 9" Ford and it's easy to see that the MW Modular 12 Bolt really meets the needs of light weight race cars.

97012 Pro 4-Link Assembly

96012 Pro 4-Link 12 Bolt Housing

DESIGN FEATURES:

- INSPECTION/FILL PLUG IN COVER, A DRAIN HOLE/PLUG IN BOTTOM OF HOUSING
- THREADED SPOOL-CARRIER ADJUSTMENT
- COVER LOCKS ON INSIDE EDGE AND USES AN O-RING SEAL TO ELIMINATE GASKETS AND LEAKS.
- THRU BOLTS INTO COVER
- CAPS SUPPORTED BY HOUSING WALL

12 BOLT PRO 4-LINK ASSEMBLIES
